ERGOFIT⁺190

It has long been known that the addition of a spray hood inside a lifejacket can significantly enhance the wearer's safety. It increases visibility and protects the airway by reducing the risk of secondary drowning which can result from water inhalation.

Enter the ErgoFit+ and its halo hood system. This industry first spray hood system works with the shape of the inflated bladder to significantly reduce the risk of water inhalation as well as heat loss. This is achieved through improved bladder and spray hood compatibility combined with a new double-halo hood construction. As a result, the spray hood is fully self-supporting once deployed and forms a spacious cavity above the wearer's face. The hood also includes an internal panel which further protects the wearer against spray whilst doubling up as an anti-glare panel, shielding the wearers' eyes from the lifejacket light.

The renowned ErgoFit bladder is, as always, a step above the rest. With its tailored shape, the bladder distributes buoyancy uniquely around the wearer to maximise in-water support and airway protection. Even when wearing heavy clothing, the ErgoFit is designed to rotate the wearer in less than 3 seconds whilst increasing the distance between the waterline and airway (mouth freeboard). The sculpted shaping around the shoulders provides improved in-water mobility and with it the ability for the wearer to self-help recovery back to safety.

In addition, the ErgoFit+ incorporates a new-to-market buckle system. With its slimline design, the quick lock buckle makes the lifejacket easy to don and accommodates the use of a single loop harness attachment point for ease of tethering.

A technological collaboration between Crewsaver innovations and that of its new partner, Exposure, is evident in the ErgoFit+. The Exposure OLAS Tag, a portable crew tracking and overboard location alert system, can be easily integrated into this lifejacket - taking man overboard protection to the next level.

*For maximum protection in severe weather conditions / when wearing heavy waterproofs / when help is far away, Crewsaver recommend opting for a 275N rated lifejacket, such as the ErgoFit+ 290N

KEY FEATURES

- INDUSTRY FIRST - Halo hood system for elevated airway protection
- INDUSTRY FIRST - Tailored window pocket, designed for full Exposure OLAS integration
- INDUSTRY FIRST - Slimline quick lock buckle system to provide easy donning
- Market leading bladder buoyancy distribution to maximise in-water support and airway protection
- Sculpted bladder profile for improved in-water mobility to aid self rescue
- A built-in inflatable chin support to help protect your airway
- Fusion 3D shape providing the ultimate in comfort
- Soft loop D-ring for attaching safety harness
- Three-layer cover construction for durability
- Easy to adjust side waist adjusters
- AIS and PLB compatible
- Lifejacket light fitted as standard
- Increased buoyancy – 290N Newtons (approved to ISO 275N)

HALO HOOD SYSTEM

QUICK LOCK BUCKLE

QUICK BURST ZIP

3D SHAPE FOR UNRIVALLED FIT

EXCEPTIONAL TURNING SPEEDS

AIS COMPATIBLE

FREEDOM OF MOVEMENT

UNIQUE CHIN SUPPORT

PROVIDES 290N OF BUOYANCY

INDICATOR WINDOW

BS EN ISO 12402-3

BLADDER

Built in inflatable chin support

The most up-to-date Hammar MA1 and UML Pro-Sensor inflation mechanisms which prevent accidental activation by wave splash

Manual oral inflation tube for additional air top up

Built in lifejacket light and whistle

Twin lifting beackets

PLB / AIS attachment points

Reflective tape to aid visibility

190N inflation chamber providing exceptional turning solutions even when wearing heavy clothing

Unique buoyancy distribution

Crotch straps to reduce ride up

Halo hood system for elevated airway protection

Double halo construction with anti-glare and spray guard panel

Enhanced bladder and spray hood compatibility

Day glow colour to aid visibility

Ordering Information

PART NUMBER	PRODUCT NAME	SIZE
9155NBGAP	ErgoFit+ 190N Automatic with Harness, Light & Hood	Adult
