

NEW SIGNATURE SERIES 3 WAKE TOWER SPEAKERS

8.8" / 7.7" / 6.5"

MARINE COAXIAL WAKE TOWER SPEAKERS

NEW SIGNATURE SERIES 3 WAKE TOWER SPEAKERS

PRODUCT OVERVIEW

EXPERIENCE THE POWER OF MUSIC

The **new, revamped Signature Series 3 Wake Tower speakers** push the boundaries of what is possible on the water even further — delivering stunning signature performance from Fusion, now with **premium CRGBW LED lighting** optimized for wake boat applications.

Replacing the existing Signature Series Wake Tower speaker range, the new Signature Series 3 Wake Tower speakers are available in three speaker sizes (8.8" 330 watts, 7.7" 280 watts and 6.5" 230 watts) and two styles (Sports White and Sports Chrome) to fit a wide range of modern wake boats and to enhance the customer's time out on the water with premium, high-quality audio.

SIGNATURE FLAGSHIP ACOUSTIC PERFORMANCE

The acoustic properties of the Signature Series 3 Wake Tower speakers have been specifically optimized for wake boat applications. With greater cut-through and precisely calculated enclosure volume, the wake tower speakers are designed to reproduce crystal-clear, high-performance audio at all volume levels.

TRUE-MARINE™ PHILOSOPHY

True-Marine design philosophy from Fusion stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season. The new Signature Series 3 Wake Tower speakers come with a 3-year warranty.

INDUSTRY-FIRST CRGBW LED LIGHTING

Take your customer's boating experience to the next level with premium aesthetics and upgraded LED lighting to help set the mood. The **new Signature Series 3 Wake Tower speakers are the world's first marine wake tower speakers to incorporate CRGBW LED lighting** for enhanced ambience.

Whereas normal RGB speakers have three LEDs (Red, Green and Blue), our CRGBW speakers have five LEDs (Red, Green, Blue, **Cool White** and **Warm White**). The benefit of having CRGBW in comparison with the industry standard RGB is the ability to create a wider range of color blends with "richer" color tone, delivering a truly premium on-water sound and lighting entertainment experience.

NEW SPEAKER SIZES WITH MULTIPLE MOUNTING OPTIONS

The Signature Series 3 Wake Tower speakers are available in **all-new 7.7" 280-watt and 6.5" 230-watt wake tower sizes** in addition to the existing 8.8" 330-watt speakers. Multiple mounting accessories, including fixed, swivel and deck mounting bracket options and various inserts (each sold separately), allow customers to mount the Signature Series 3 Wake Tower speakers onboard with versatility and ease.

IP65 WEATHERPROOF

The new Signature Series 3 Wake Tower speakers are rated IP65 for water and dust ingress protection, while also meeting industry standards for UV and salt fog protection. This makes them perfect for the harsh outdoor marine environments.

CRGBW LIGHTING

FULL CONTROL OF THE ILLUMINATION

The **new Signature Series 3 Wake Tower speakers** illuminate an unprecedented spectrum of colors never before seen on a marine wake tower speaker. The ability to combine RGB with Cool White or Warm White produces a new palette of colors for wake tower speakers to help create a premium, more ambient atmosphere on board your customer's boat.

Control of the color (static or dynamic), brightness, light mode and speed is made easy with the optional wireless remote control (sold separately). The intuitive color select wheel allows the user to select whatever color they desire to help set the mood.

KEY FEATURES

The new **Signature Series 3 Wake Tower speakers**, with their innovative technology and design, offer a new world-class audio entertainment experience, featuring:

KEY FEATURE

The innovative CRGBW lighting illuminates a wider range of colors with richer tones than standard RGB, which helps set the mood for a premium on-water entertainment experience with enhanced ambience.

The speakers are specifically optimized for wake boat applications. With greater cut-through and precisely calculated enclosure volume, the Signature Series 3 Wake Tower speakers are designed to reproduce crystal-clear, high-performance audio at all volume levels.

Fixed, swivel and deck mounting bracket accessory options and various inserts (each sold separately) are available to mount the Signature Series 3 Wake Tower speakers onboard with versatility and ease. Available inserts include Ø 63.5 mm [2-1/2"], Ø 60.3 mm [2-3/8"], Ø 57.2 mm [2-1/4"], Ø 50.8 mm [2"], Ø 48.3 mm [1-29/32"], Ø 42.2 mm [1-21/32"] and Ø 33.4 [1-5/16"] sizes.

KEY FEATURE

CURV is a woven polypropylene composite that is heat-pressed to form a lighter and stronger cone, delivering greater sound definition and higher output while providing increased protection from marine conditions.

True-Marine™ design philosophy from Fusion stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real-world boating applications, our customers are assured that the equipment they fit into their boat will deliver quality entertainment season after season.

KEY FEATURE

The silk dome tweeter provides a smooth upper frequency response and increased efficiency, which delivers crystal-clear music reproduction.

Delivering an increase in real power and efficiency, the large-diameter voice coil provides a signature sound exclusive to the Signature Series 3 Wake Tower speakers.

Rated IP65 for water and dust ingress protection, these speakers also meet industry standards for UV and salt fog protection. Enjoy confidence that your Signature Series 3 Wake Tower speakers will last season after season in the harsh marine and outdoor environment.

330-watt peak power

4-ohm impedance

All crossover components are fully sealed, providing full protection from the harsh marine environment. This delivers an improved frequency response at the crossover point for a detailed audio spectrum and a new level of acoustic performance.

The basket is constructed using high-grade engineered plastics to deliver unprecedented durability when exposed to the marine environment.

NEW SIGNATURE SERIES 3 SUBWOOFERS

SIGNATURE SERIES 3 SUBWOOFERS

SG-S102W | SKU 010-02435-00
SG-SL102SPW | SKU 010-02435-10
SG-SL102SPC | SKU 010-02435-11

Matching upgraded 10" 600-watt peak power Signature Series 3 marine subwoofers with CRGBW LED lighting (sports-style only) are also available to add another dimension to your onboard audio entertainment experience.

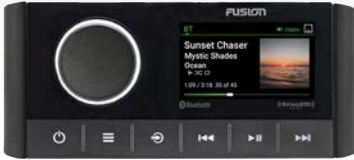

PRODUCT COMPATIBILITY

STEREOS

APOLLO™ RA770
MS-RA770 | SKU 010-01905-00

Through creative design and technological brilliance, a purpose-built marine audio entertainment system featuring many industry firsts has been created, including many innovations you are accustomed to at home. Tap and swipe your way intuitively through your playlists with the glass touchscreen display, even with wet fingers, and enjoy high-quality music all day with Wi-Fi® streaming, including the AirPlay® 2 feature from Apple® or universal plug-and-play.

APOLLO RA670
MS-RA670 | SKU 010-02138-00

Award-winning innovation reembodyed, the Apollo RA670 marine entertainment system features Fusion DSP technology, PartyBus™-Network¹ capability, over-the-air software updates¹, Wi-Fi audio streaming¹ with AirPlay 2¹, Multi-Zone™ technology in up to three zones, optical audio input, Fusion-Link™ integration and an optically bonded 2.7" color display. The RA670 is truly a powerful extension of the Apollo Series.

APOLLO WB670
MS-WB670 | SKU 010-02346-00

Designed to simplify dash space at the helm, the new Apollo WB670 hideaway system inherits key audio innovations from the Apollo RA670 reengineered in a compact, space-saving form factor, allowing for installation in out-of-way places such as storage lockers, inside helm consoles and other hidden compartments. Key features include Fusion DSP technology, PartyBus-Network¹ capability, Fusion-Link integration and more.
