

SCANSTRUT®

ATMOS 12V Integrated Air Station in Augmented Reality - AR

Why use AR?

Using AR is a great sales tool, as you can use it with customers to show key details of a product, showcase ATMOS and take photos in situ - ready to share!

Where to Use?

- On a boat - to showcase real-life installation locations + options
- On an RV
- At a show
- When out visiting customers

How to Use Scanstrut Augmented Reality

- 1 Scan the QR code using your phone's camera - Or click the link.
- 2 Tap View in AR (located in the tab beneath the render).
- 3 Point your phone to the location where you want ATMOS to appear. (A boat or an RV!)
- 4 Slowly move your phone around the room so it can detect walls and floors.
- 5 Now you have ATMOS in Augmented Reality!
